

## Connecting LWV with the public using tattoos

The Montgomery County, Indiana League of Women Voters has been using temporary tattoos to attract and connect with the public in our area.

### Advantages:

- It draws people to our exhibit.
- Tattoos give us 30 seconds of guests' uninterrupted attention while each tattoo is applied, during which we can tell them about our activities, our current projects, or just have a pleasant chat.
- We're developing many repeat guests at our various events.
- We enjoy doing this as much as our visitors do.
- The cost is minimal.

**Where do we get the tattoos?** We ordered them from one of the many suppliers of these tattoos – online from [temporarytattoos.com](http://temporarytattoos.com), 3741 E Technical Drive, Tucson, AZ 85713 877-7767-5136

**How are they designed?** We designed them ourselves to fit our current activities. One of our members produced the art on a computer and emailed it to the company. The art you see here is available from us, the League of Montgomery County Indiana.

**Are they expensive?** It's one of the lowest-cost things you can do to attract people to your League activities. We ordered 1,000 for a cost of \$117.55. That was three years ago. Current prices may be different.
