RE: VOTE411

The League of Women Voters (LWV) at all levels – national, state and local are providing candidate information on the VOTE411 website. This website, maintained by the LWV, identifies candidates, at all levels of government, that are running for office in the 2020 Primary election.

While the national and state Leagues are providing questions for candidates running for positions on those levels of government, the local League of Women Voters of Montgomery County (LWVMC) has written questions pertaining to our local concerns.

Our local League invites you to respond to these questions, with your own words and thoughts. This would provide our citizens with information regarding your candidacy. Especially, at this time, when debates, political rallies and opportunities for you to meet the public have been cancelled, you can reach voters through VOTE411. We encourage you to look at the website vote411.org.

Attached are the list of questions, which have been approved by the local LWVMC. Please write your bio information and respond to the questions as they would apply to the position you are seeking.

Lastly, please email the questions, with your responses, to Myra Dunn Abbott, mdunnabbott@aol.com. The Active Voting Services committee will be posting your responses on the VOTE411 website. Your posting will allow you to connect with voters; and, voters in turn can learn about your position on local concerns.

Thank you for your assistance. A major objective of the LWVMC is to promote voter registration and voter turnout. By providing VOTE411, voters will know more about your candidacy. We will certainly work to promote voter turnout in Montgomery County.
